52. The night sky makes a very interesting study. To an astronomer or a sailor, the position of the stars is a serious, professional study. Many of the stars are known by their names. Each has a distinctive appearance. The sky on a moonlit night is the poet's delight. The sky on a moonlit night may appear somewhat sinister to some, but to Shelley, the poet, it is the star-spangled black dress of a woman. Why the sky is covered, with clouds without any stars, it wear a grim appearance. To a child, the sky at night is a mystery and to the mature, it is an endless object of study.

Questions:

1. How is the study of the night sky?
2. Who is an astronomer?
3. Name the poet mentioned in the passage.
4. When does the sky appear grim?
5. How is the sky at night for a child?
